NEW HAWKER WINDOW BENEFITS

- The only aftermarket Hawker window approved and sold by Beechcraft.
- Extended Inspection requirements and the elimination of some inspections altogether. This change will also apply to New Generation windows previously installed.
- Advanced design provides a 10% reduction in noise transmittance which means a quieter cabin.
- Allows for complete removal of the existing window desiccant air system.
- Greatly reduced cost. You should never need to remove for cleaning or maintenance as you have in the past.
- Thicker window for an extended life.
- Newest "Dry Mount" installation method or standard "WET Mount" windows are available.
- Added tint options with Natural UV Barrier.
- Visually appealing; no more looking through discolored foggy windows
- Can be custom laser etched with Name, Company Logo, etc.
- If you currently have these windows installed – give us a call for the latest revision to the Continued Airworthiness Inspection requirement.

FAA/EASA REPAIR STATION

SERVICES

As the industry leader in transparencies, Lee Aerospace has been operating a full service manufacturing and repair facility since 1989. Our team of Certified Window repairmen can inspect every window in your aircraft and provide you with an expert, detailed evaluation on the condition of your aircraft windows.

As the OEM for some of the largest aircraft manufacturers in the world, Lee Aerospace's qualified team of FAA certified technicians can provide you with a detailed inspection, quick repair turn around, or accurately installed windshield or window.
